ABOUT THE COMPANY

Atlas Dynamic Solutions Limited is a 100% Zambian-owned engineering, procurement, and project Development Company headquartered in Lusaka, Zambia. Incorporated in April 2023, ADSL brings together local market knowledge and strong international technical partnerships to deliver reliable, high-quality solutions across four business divisions.

We work with government ministries, national parastatals, international development agencies, mining and energy companies, financial institutions, and private developers. Our approach combines disciplined project execution, rigorous compliance, and a genuine commitment to building Zambia's industrial and infrastructure capacity.

VISION & MISSION

Vision

To be Zambia's foremost partner in engineering, procurement, and project development, driving sustainable growth and innovation across the mining, energy, construction, agricultural, and industrial sectors by setting the benchmark for quality, safety, and client-centered excellence.

Mission

To empower Zambia's industrial and infrastructure landscape by providing innovative, reliable, and cost-effective engineering and procurement solutions that consistently exceed client expectations, delivered by a team that combines local insight with world-class technical partnerships.

OUR VALUES

1. Commitment to Excellence

We deliver on every promise with professionalism and integrity. Our clients trust us to get it right first time and to stand behind our work.

2. Innovative Approach

We integrate modern technologies and trusted international partnerships to provide tailored solutions that are fit for purpose, not off the shelf.

3. Cost-Effective Solutions

We maximize value without compromising on quality, safety, or compliance. Our clients get the best outcome for their budget.

4. Client-Centered Service

We aim to exceed client expectations at every touchpoint, from first enquiry through to project handover and after-sales support.

OUR 4 DIVISIONS

1. Engineering Contracting

Our engineering contracting division undertakes civil and electrical construction works, project management, and the installation of industrial, water, and agricultural systems. We are registered with the National Council for Construction at Grade 6 across General Civil Engineering (Category C), Buildings (Category B), Roads (Category R), and General Electrical and Telecommunication (Category E). Recent contracts include OSEC chlorination system installation for UNICEF Zambia and greenhouse rehabilitation works for FAO Zambia.

2. Trade & Supply

We procure and supply industrial equipment, vehicles, consumables, safety gear, and technical products to clients across Zambia and the region. As authorized distributors and supply partners for a range of international OEM manufacturers, we handle the full chain from sourcing and importation through to customs clearance, delivery, and after-sales support.

A black and white photograph of construction workers on a roof, with a large blue diagonal graphic overlaying the bottom right portion of the page.

3. Project Development

We identify, structure, and develop infrastructure and commercial projects across multiple sectors. Our project development activity spans energy, cold chain logistics, retail services, and other asset-backed opportunities, executed through joint ventures and investment structures under the Atlas Holdings group. Specific initiatives are available for discussion with prospective partners and investors.

4. Agri-Tech

Through our joint venture partnership with Future Farms SA, we design, supply, and install greenhouse structures, hydroponics systems, and smart farming infrastructure for institutional and commercial clients. We have delivered agri-tech projects for FAO Zambia and are positioned to serve government agricultural programmes, universities, and private farming enterprises.

SERVICES & CAPABILITIES

1. Engineering and Technical Works

Civil construction and renovation works. Electrical installation and telecommunications. Industrial machinery installation. Plumbing and HVAC systems. Power generation including generators, solar systems, UPS, and portable power stations.

2. Water Treatment Solutions

On-site electro chlorination (OSEC) systems. Sodium hypochlorite generation. Disinfection systems for camps, industrial plants, and municipal water facilities. Supply and installation of water treatment equipment in partnership with Geemblue Environmental Equipment Co., Ltd.

3. Fire and Safety Systems

Fire pumps and suppression systems. Vehicle-mounted and fixed fire protection solutions for camps, plants, and industrial facilities. Fire safety equipment supply in partnership with NM Fire.

4. Industrial and Mining Equipment

Overhead cranes, hoists, and lifting accessories. Specialized industrial vehicles, utility trucks, and forklifts. Conveyor systems and material handling equipment. Storage solutions including fuel tanks, chemical tanks, and LPG systems.

5. Agricultural and Greenhouse Systems

Greenhouse design, supply, and construction. Hydroponics and NFT production systems. Drip irrigation and fertigation. Insect-proof netting, shade cloth, and climate management systems. Delivered in joint venture with Future Farms SA.

6. Safety and Protective Equipment

Personal protective equipment for industrial, mining, and construction environments. Corporate workwear and fire retardant uniforms. Ballistic protective gear.

7. Automation and Control Systems

PLCs, SCADA systems, sensors, and instrumentation for process automation. System integration and technical support for mining and industrial plants.

9. Project Support Services

Multidisciplinary engineering project consultancy. Procurement consulting and sourcing strategy. Import management and end-to-end logistics. Compliance consulting and technical documentation.

KEY CLIENTS

Supply, installation and commissioning of OSEC chlorination systems, Choma, Southern Province. Delivered in joint venture with Geemblue Environmental Equipment Co., Ltd (Guangzhou, China). Contract No. 43460113. Status: Active.

Zambia

Design, supply and installation of hydroponics production unit at NRDC Greenhouse, Lusaka. Contract No. 136205. JV with Future Farms SA. Status: Awarded.

Rehabilitation of 9-span gutter-connected tunnel-type greenhouse at Barlastone and Kanakantapa. Contract No. 136307. JV with Future Farms SA. Status: Awarded.

Supply, delivery and commissioning of fire engine truck. Contract Ref: KGL.1100.08D.CNT0185. Status: Completed.

Supply and delivery of fixed wireless communication radios, compressors, and mechanical tool boxes.

Supply of cameras, GPS units, and accessories.

Supply of fire retardant depot operational uniforms and branded caps.

Supply and delivery of rugged field phones.

Levy Mwanawasa Medical University

Supply and delivery of appliances and office equipment.

Supply and delivery of generator service kits, Kansanshi mine site, Solwezi.

INTERNATIONAL PARTNERSHIPS

ADSL maintains formal partnerships with leading international manufacturers and technical specialists. These relationships allow us to offer competitive pricing, verified product quality, technical expertise, and after-sales support that would otherwise be difficult to access in the local market.

Active Joint Venture Partners

Guangzhou, China. Advanced water treatment systems, OSEC electro chlorination, and disinfection equipment. Active JV on UNICEF Zambia chlorination contract.

South Africa. Greenhouse construction, hydroponics, and smart agricultural technology. Active JV on both FAO Zambia contracts.

Authorised Distributors

Jinan, China. Overhead cranes, hoists, and lifting equipment.

China. Specialized industrial and utility vehicles.

South Africa. Fuel, industrial, and chemical storage tanks.

Supply Partners

Xiamen, China. Ballistic safety equipment and protective gear.

China. Fire pumps, suppression systems, and fire safety equipment.

Dongguan, China. Specialized PPE and industrial workwear.

COMPLIANCE & CREDENTIALS

All statutory registrations and compliance certifications are current. Copies of all certificates are available on request or as attached to this profile.

Certificate of Incorporation	PACRA. Registration No. 120230049211. Incorporated 14 April 2023. Private Company Limited by Shares.
Tax Clearance Certificate	Zambia Revenue Authority. TPIN: 2001205730.
Workers' Compensation	Workers' Compensation Fund Control Board. Account No: 0005000987/1701.
NAPSA Compliance	National Pension Scheme Authority. Employer Account No: 6500189.
TNCC Registration: Civil	National Council for Construction. Category C, General Civil Engineering Works; Category B, Buildings; Category R, Roads.
NCC Registration: Electrical	National Council for Construction. Grade 6, Category E, General Electrical and Telecommunication.
